

Foldaway Kebab Grill

The foldaway kebab grill packs into its own tray for portability. It has a handle, so can be carried like a brief case. This is ideal for people who prefer the creativity that kebab cooking can deliver as against the volume that can be cooked on large rotisserie spits.

Vegetarians prefer this model as there is no possibility of meat fat dropping from rotisserie spits above the kebabs.

The kebab skewers can be replaced by a traditional grill. Four "L" shaped rests fit in place of the kebab gear drive and skewer holder.

Lining the tray with tin foil eases disposal of ash when cooking is finished.

Everything can be packed into the tray, secured and carried around like a briefcase - very portable and simple to use.

The foldaway kebab grill comes complete with:

- 7 x kebab skewers
- 2 x food retaining forks
- Kebab gear drive
- 1 x 1.5 volt battery motor
- BBQ grill tray
- 4 x BBQ grill tray rests
- Carry handle
- 2 x fold out trays
- 2 x tray rests
